6 REASONS WHY
YOU
 SHOULD GET A
ZYTO
 SCAN

MKD-01201.D

ZYTO.COM

With ZYTO technology, it's easy to identify your body's biological coherence to products and lifestyle options.

Your first step to getting more out of life may be as close as a ZYTO scan.

1 – Gain insight into your wellness

Reports from your ZYTO scan provide you with information that may help you make individual wellness choices. Identifying Virtual Items to which you have an unusual response may give you and your practitioner insight to keep you functioning at an optimal state.

2 – Identify your biological coherence for nutrition

Does one size fit all when it comes to nutritional support? Of course not! ZYTO scans identify your body's unique responses. Knowing your biological coherence helps you and your practitioner choose the nutritional supplements that will support your individual health and wellness needs.

3 – Save money

There are many good nutritional supplements, but you probably don't need them all. Knowing your biological coherence helps you to choose products that are right for you. Choosing the right supplements means your investment is more likely to pay off, providing you the benefits you need and saving money on things you don't need.

4 – Target specific areas

From energy to weight management to longevity and more, a ZYTO scan can assist you in whatever area of wellness you are looking to improve in. Virtual Items in the ZYTO software are categorized in different wellness areas, so you can scan for only those categories that are relevant to you and your goals with the guidance of your practitioner.

5 – Track your wellness

ZYTO scans give you information “in the moment.” Tracking your scans over time can be beneficial, allowing you to identify trends or long-term patterns that you will want to pay particular attention to. Keeping track of your past can help you predict the future, and reviewing your past ZYTO reports gives you essentially a look back through time.

“I like ZYTO technology because of the way it looks at information... it's information specific to the question you asked about the individual.”

- Nick Lamothe, PhD

6 – Get peace of mind

Worrying about your health or the health of a loved one can be incredibly stressful. ZYTO scan reports introduce a new perspective about your unique biological coherence, enabling a more complete picture of wellness. Knowing more about your individual wellness can make all the difference, giving you an added measure of peace.

The ZYTO Hand Cradle has been cleared by the FDA for the measurement of galvanic skin response. ZYTO software has not undergone FDA review for effectiveness. ZYTO technologies are not intended to be used in the diagnosis, cure, treatment, mitigation, or prevention of any disease or medical condition.
